

MEDLINE ***SURGICAL GLOVES***

SETTING THE STANDARD IN:

- Protection and Comfort
- Innovation
- Hand Care
- Choice
- Customer Service

THE MOST COMPREHENSIVE SURGICAL GLOVE OFFERING...

MEDLINE

- Market leader in examination gloves, as well as the fastest growing surgical glove company in the industry.
- Manufacturing quality surgical gloves for over a decade and the glove of choice for many leading healthcare facilities worldwide.
- Full line of latex, latex-free and specialty gloves in a variety of styles.
- *What sets us apart:* unique patented technologies and innovative designs that other glove companies don't have.

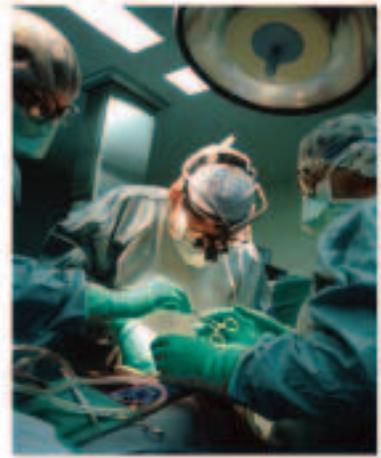

Medline's acquisition of Maxxim Medical in 2003 made Medline even stronger. Maxxim's line of surgical and examination gloves rounded out our already comprehensive glove offering and gives you many different options when choosing the products that fit your specific needs.

SUPPORT IS KEY

We realize that a quality glove, reliable service and a great price doesn't mean much if you don't have the support from your glove supplier. This especially holds true with surgical gloves because of the clinical sensitivity related to choosing a new surgical glove supplier:

Medline employs:

- 700 full-time sales representatives
- 50 clinical nurse specialists
- Team of glove specialists. These specialists are all fully trained on Medline's entire line of surgical gloves and they will be an integral component in converting the facility to the Medline gloves. Several enhanced programs available to you are:

GLOVE MANAGEMENT PROGRAM

Working with your local Medline sales representative and specialists, we can help you with key initiatives you may have such as:

- Eliminating product waste and misuse
- Improving patient and worker safety
- Reducing inventory/SKU's
- Lowering costs
- Eliminating powder or latex in the O.R.

GLOVE EDUCATION PROGRAMS

Medline offers various educational programs such as lectures, training videos, regional seminars and discussions, interactive software and online resources, as well as our over 50 CEU programs.

MEDLINE SURGICAL GLOVES

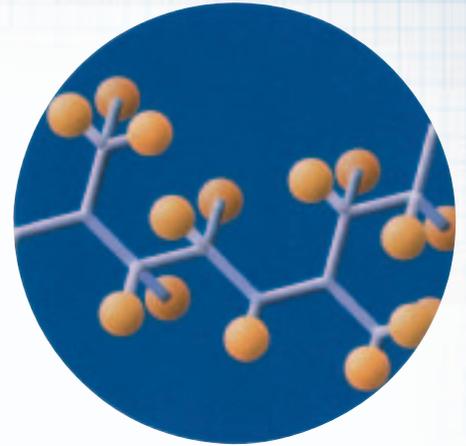

Natural Rubber Latex

LATEX FIT. LATEX FEEL. LATEX-FREE.

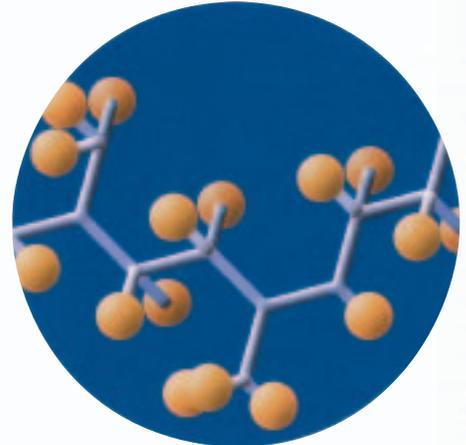

Medline's Sensicare® latex-free powder-free surgical gloves offer the fit and feel of the finest latex gloves, without the harmful latex proteins. The Sensicare surgical gloves are specially made from ISOLEX™, a proprietary, synthetic polyisoprene material that mimics the physical properties of latex. In addition, the Sensicare surgical gloves are made with our Aloetouch technology to provide you with the finest, most innovative surgical glove available.

THE MIRACLE OF ISOLEX™.

On the molecular level, the structure of ISOLEX™ is almost identical to natural rubber latex, providing the fit and feel of the best latex gloves. However, as synthetic latex, ISOLEX™ doesn't contain the proteins, allergens and impurities found in natural rubber latex.

ISOLEX™ Polyisoprene

All results must comply with rigorous Medline Standards which are more stringent than the FDA requires.

MEDLINE'S QUALITY ASSURANCE PROGRAM

Developed to ensure that you receive the highest quality gloves every time you order from Medline. The quality of Medline's surgical gloves comes from rigorously monitoring the manufacturing process as well as the final product. Quality gloves most importantly must be safe; they should also be easy to don, comfortable, and sensitive. When evaluating any glove, it is important to understand the steps that are taken to assure quality.

100% INSPECTED FOR:

- Thickness
- Dimension consistency
- Elongation
- Pinholes/tears
- Tensile strength

MEDLINE **LATEX-FREE GLOVES**

Medline's latex-free gloves are a perfect fit for everyone in the O.R., providing added latex-free protection for both your surgical staff and your patients. All of Medline powder-free, latex-free gloves have a proprietary inner polymer coating which allows for easy donning and double gloving.

SENSICARE® WITH ALOE:

- State-of-the-art **polyisoprene** synthetic material that provides the fit, feel and durability of natural rubber latex without the harmful latex proteins.
- Inner coating of pure Aloe Vera helps moisturize and soothe dry, irritated hands.

With Aloetouch Technology

- Powder-free
- Reinforced beaded cuff to resist tearing
- 100% inspected

Packaging: 25 pairs/box, 4 boxes/case, 100 pairs/case

Item Number	Size	Item Number	Size
377055	5.5	377075	7.5
377060	6.0	377080	8.0
377065	6.5	377085	8.5
377070	7.0	377090	9.0

Note: To order by the box, simply add a "Z" to the end of the item number.

NEOLON™:

- Made with a 2nd generation **neoprene**, a synthetic material specifically developed for skin sensitive to natural rubber latex.
- Powder-free

- Soft brown color
- Reinforced beaded cuff to resist tearing
- 100% inspected

Packaging: 25 pairs/box, 4 boxes/case, 100 pairs/case

Item Number	Size	Item Number	Size
376855	5.5	376875	7.5
376860	6.0	376880	8.0
376865	6.5	376885	8.5
376870	7.0	376890	9.0

Note: To order by the box, simply add a "Z" to the end of the item number.

"We wear sterile gloves all day - every day in surgery. Our hands take punishment from the irritation of the powder and latex in gloves. Over the last year, my hands have gotten progressively worse due to a glove sensitivity. I wore the Aloetouch gloves for a few days and my hands completely cleared up. I could not believe the difference. For the first time in years, my hands were not cracked, red or irritated. These gloves are truly amazing." -- Tammy Acosta, RN, Orange Coast Memorial Medical Center

HAND CARE SOLUTIONS...

ALOE TOUCH® TECHNOLOGY - WHY IT'S IMPORTANT

Your skin is your body's first line of defense against the environment around you. Healthcare professionals know first hand the issues of developing dry, irritated skin from frequently wearing gloves and washing their hands. In surgery, these hand care concerns are even greater because gloves are worn for long periods of time. The powder used in many surgical gloves and the alcohol concentrated scrub solutions also dry out your hands. To help you combat these issues, Medline developed a full line of Aloetouch Surgical Gloves in 2002.

Similar to our Aloetouch exam gloves introduced in 1999, the surgical gloves are **coated** with pure Aloe Vera. As you wear the gloves, your own body heat activates the Aloe, releasing it onto your hands. By wearing the Aloetouch surgical glove as your glove of choice, you will help to keep your hands soft and healthy.

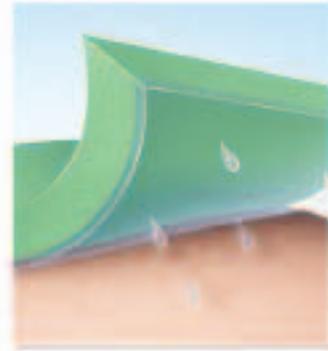

In clinical evaluations, respondents preferred Aloetouch gloves to their current glove, and noticed a significant difference in how their hands felt after the trial period.

100% of study participants exhibited "marked improvement" in skin quality after an average of only 10 days.

Dr. Dennis West, Northwestern University, AJIC, 2003

Skin moisturizing products can prevent drying, discomfort and dermatitis, and reduce bacterial shedding from the skin.

AORN Recommended Practice I-6, 2003

The Aloetouch® technology is available on a variety of latex and latex-free surgical and examination gloves. Please ask your local sales representative to detail the gloves.

*Only pure aloe
is used in our
surgical gloves.*

LATEX, POWDER-FREE GLOVES

For many healthcare facilities, eliminating pre-powdered surgical gloves in the O.R. is a top priority. Medline has a full range of powder-free gloves and the experience to help you achieve your goals. All of Medline's powder-free gloves have a proprietary inner polymer coating which allows for easy donning and double gloving.

ALOETOUCH®:

With Aloetouch Technology

- Standard thickness glove perfect for all general procedures.
- Inner coating of pure Aloe Vera helps moisturize and soothe dry, irritated hands.
- Enhanced fit and grip
- Low protein
- Powder-free
- Reinforced beaded cuff to resist tearing
- 100% inspected

Packaging: 50 pairs/box, 4 boxes/case, 200 pairs/case

Item Number	Size	Item Number	Size
MDS206055	5.5	MDS206075	7.5
MDS206060	6.0	MDS206080	8.0

Note: To order by the box, simply add a "Z" to the end of the item number.

LATEX, POWDER-FREE GLOVES

TRIUMPH:

- Standard thickness glove that can be used alone or as an outer glove when double gloving (over Aloetouch)
- Smooth outer surface
- Low protein
- Powder-free
- Reinforced beaded cuff to resist tearing
- 100% inspected

Packaging: 50 pairs/box, 4 boxes/case, 200 pairs/case

Item Number	Size	Item Number	Size
MDSI08055	5.5	MDSI08075	7.5
MDSI08060	6.0	MDSI08080	8.0
MDSI08065	6.5	MDSI08085	8.5
MDSI08070	7.0	MDSI08090	9.0

Note: To order by the box, simply add a "Z" to the end of the item number.

TRIUMPH LT:

- Standard thickness glove that can be used alone or as an outer glove when double gloving (over Aloetouch)
- Lightly textured (LT)
- Low protein
- Powder-free
- Reinforced beaded cuff to resist tearing
- 100% inspected

Packaging: 50 pairs/box, 4 boxes/case, 200 pairs/case

Item Number	Size	Item Number	Size
MDSI08055LT	5.5	MDSI08075LT	7.5
MDSI08060LT	6.0	MDSI08080LT	8.0
MDSI08065LT	6.5	MDSI08085LT	8.5
MDSI08070LT	7.0	MDSI08090LT	9.0

Note: To order by the box, simply add a "Z" to the end of the item number.

RADION-X™ RADIATION PROTECTION:

- Sterile, lead-free and environmentally responsible.
- Powder-free to eliminate powder-related complications.
- Unique khaki color minimizes eye strain in the O.R
- Micro roughened surface for enhanced tactile sensitivity.
- Beaded cuff allows for easy donning and helps to prevent rolldown.

What is a radiation protection glove? Single use, sterile gloves designed to protect the user's hands during procedures where dangerous ionizing radiation is present from the C-Arm and other X-ray machines.

Why are they necessary? Radiation exposure is dangerous and accumulative. Normal surgical gloves offer little to no protection against radiation.

What procedures would require radiation protection gloves? Diagnostic Heart Catheterizations, Coronary Angioplasties, Angiocardiography, Urology, Orthopedic Surgery, Anesthesiology/Pain Management

Packaging: 10 pairs/box, 2 boxes/case, 20 pairs/case

Item Number	Size	Item Number	Size
377365	6.5	377380	8.0
377370	7.0	377385	8.5
377375	7.5	377390	9.0

Note: To order by the box, simply add a "Z" to the end of the item number.

The glove will meet or exceed the following attenuation readings:

Direct Beam Energy Level	Attenuation	Lead Equivalence Value, mm Pb
60kVp HVL 2.3mm AL	55%	At 80kVp, 0.15mm
80kVp HVL 3.3mm AL	43%	Cu Filter up to 0.044
100kVp HVL 4.3mm AL	34%	
125kVp HVL 5.6mm AL	26%	

MEDLINE **LATEX, POWDERED GLOVES**

There's nothing "standard" about our O.R. Classic brand latex, powdered surgical gloves. These quality, cost effective gloves have been the powdered glove of choice in many operating rooms for well over a decade.

O.R. CLASSIC:

- Standard thickness glove perfect for all general procedures
- Lightly powdered
- Proprietary rinsing system to reduce latex allergens and proteins
- Micro roughened grip
- Reinforced beaded cuff to resist tearing
- 100% inspected

Packaging: 40 pairs/box, 4 boxes/case, 160 pairs/case

Item Number	Size	Item Number	Size
MDS104055	5.5	MDS104075	7.5
MDS104060	6.0	MDS104080	8.0
MDS104065	6.5	MDS104085	8.5
MDS104070	7.0	MDS104090	9.0

Note: To order by the box, simply add a "Z" to the end of the item number.

MEDLINE INDUSTRIES, INC.

Medline is the largest, privately held provider of medical supplies in the country. The fact that we supply such a range of products and management services is attractive to health care systems which are increasingly looking for a partner who can provide comprehensive solutions.

It is important and reassuring for our customers to know that we are a market leader in many major product categories. At the same time, we pride ourselves on delivering outstanding service, consulting and management support to help our customers solve materials management, operational and clinical issues facing them every day. That is why we are constantly expanding our 700 person sales force and more than 70 product specialists and on-staff clinicians.

We are proud of the fact that we are the fastest growing company in the health care supply business, which is rare for a 38 year old company. How can we do that?

- As a manufacturer which distributes direct to the marketplace, we do not rely on distribution fees for our survival
- Guarantee our cost saving results
- Provide a wide range of consulting, utilization and clinical support
- Provide advanced e-commerce expertise
- Guarantee minimum 98% fill rates

As a leading provider of highly effective supply management programs, Medline has the solutions and resources to help your facility provide quality health care in the most cost effective manner.

Medline corporate headquarters and manufacturing facility in Mundelein, IL.
